

# COMPANION QUESTIONNAIRE

Your Name: \_\_\_\_\_  
 Relation to Patient: \_\_\_\_\_

Patient's Name: \_\_\_\_\_  
 Today's Date: \_\_\_\_\_

In our professional experience, we have found that many of our patients describe hearing loss as the perception of Sound Voids™ that affect not only their normal daily routines, but the lives of those around them. We would like to ask you a few situational questions to better understand your companion's listening lifestyle and how we might improve their quality of life.

## Does a hearing problem

	Always	Sometimes	Never
Make it difficult for your companion to converse on the telephone?	A	S	N
Cause you to complain that your companion turns up the TV or radio too loud?	A	S	N
Cause your companion to have difficulty following conversations in a restaurant?	A	S	N
Limit or hamper your companion's personal or social life?	A	S	N
Cause your companion to have to ask others to repeat themselves?	A	S	N
Cause your companion to have difficulty hearing when in the presence of background noise?	A	S	N
Cause your companion to have difficulty hearing women's or children's voices?	A	S	N
Cause your companion to hear people speak, but fail to understand what they are saying?	A	S	N
Cause your companion to feel as though others mumble?	A	S	N
Cause your companion to feel stressed or tired when listening for long periods of time?	A	S	N

## Please provide the top three listening situations where you would like your companion to hear better

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

## Please select your companion's current lifestyle (choose one):

- Active (frequent background noise)
  Casual (occasional background noise)  
 Quiet (limited background noise)
  Very Quiet (rare background noise)

## Please select your companion's desired lifestyle (choose one – may be the same or different from current lifestyle):

- Active (frequent background noise)
  Casual (occasional background noise)  
 Quiet (limited background noise)
  Very Quiet (rare background noise)

# COMPANION QUESTIONNAIRE
